

How do ClearNatural capsules work?

Finally, you can break free of the constant battle with wart outbreaks and live warts - free. ClearNatural wart virus capsules are the popular award winning formulation of the six most important herbs in flushing from your system the Human Papilloma (HPV) virus that causes warts. It is formulated perfectly in an advanced delivery system capsule, which restores the body's natural defenses so that it flushes the HPV virus and its fungal host. ClearNatural works on all types of warts such as common warts, plantar warts, flat warts, genital warts, seed warts, filiform warts, anal warts, penile/penis warts, facial warts, etc.

ClearNatural is the leading brand for all-natural wart products. ClearNatural has no toxicity or side effects. As it restores the body's natural defenses, people have reported much more resistance to a large range of viruses as well. ClearNatural's herbal ingredients search out the HPV virus and flush it from your system. After completion of the 3-month wart virus capsules, the integrity of your outbreak sites should be restored, and then you may discontinue ClearNatural.

You take 1 capsules 2 times a day for 90 days, after that you should be wart free. The healing process varies from person to person. Depending on the quantity and size of warts and your immune system, warts will be flushed in 2 to 12 weeks. Once gone, the same warts will not grow back again.
